

The Inspection Group, Inc.

Presents the

UPCS Training SPECIAL

“We’re looking for Sponsors”

“It’s this simple”

\$8000 includes 40 attendees, \$200 per attendee over 40 registrants. 2-day class, 8:30am to 4:30pm (1 hour lunch). *Monday-Tuesday or Thursday-Friday, July to December 2002 only.*

You provide:

The facilities (set-up for training classroom-style); an 8’ projection screen; refreshments for two daily breaks; speaker’s podium and electric... that’s it, besides the initial cost. Speaking of “The Cost”, this might cost you nothing!

Example:

If we can get other PHA’s or property management companies to send 23 attendees and they pay \$350 per person, the revenue will cover the cost of the class and you still can get 17 staff members trained at no cost to you. Plus, you’ve made it affordable for the other PHA’s in your area to get the best UPCS training available. Say you get 40, 50 or 60 outside attendees, you do the math.

We provide:

Two instructors, one of which is Jack T. Smith- REAC Inspector and UPCS Protocol Trainer. Jack has conducted 1500+ REAC/UPCS inspections over the past four years and has contributed articles to many national trade publications. He is the co-author of the housing industry best-seller, “UPCS FlipField Guide[®]” and the TIG/UPCS Training Manual.

We will also send 2-mailings to your area PHA’s with your PHA listed as the class sponsor.

Each attendee will receive our special binder training manual containing a customized color copy of the REAC/UPCS protocols with updates of the Pi-Ops bulletins; pertinent web links; full color copies of the digital material and slides shown during the class. Each defect definition has detailed information pertaining to scoring impact... from the first day’s morning introductory presentation through the certification test, participants will learn how to understand and implement inexpensive, but effective, procedures that will ultimately result in improving and maintaining your REAC/PHAS scores. Each attendee will also receive the “UPCS FlipField Guide[®]” and a personalized Certificate of Completion.

**This is a limited time offer. Call Today.. (*Your PHAS scores may depend on it*)
and let’s get you on the schedule, call toll-free (866) 727-7732**
